Profile

Full Stack Developer with two e-commerce platforms in production and an ERP system actively used in a real business. End-to-end experience: from APIs and databases to server deployment. Fast learner, clean coder, and eager to grow within a development team.

Technical Skills

React | JavaScript (ES6+) | HTML5 | CSS3 | Tailwind | Python | Flask | REST APIs | JWT
PostgreSQL | SQLite | SQLAlchemy | Linux | Nginx | Gunicorn | VPS | AWS | Stripe | Mercado Pago
Git/GitHub

Projects

Bookstore Stock System – Management System

- Developed a complete ERP system for a bookstore: inventory, orders, sales, and real-time cash register.
- Implemented JWT authentication with roles (admin/employee), deployed on AWS EC2 with Nginx/Gunicorn.
- System currently in daily use, replacing manual processes and reducing operational errors.

E-commerce Platform – Online Store

- Full-stack platform with cart, checkout, payment gateway (Mercado Pago), and JWT authentication.
- REST API with Flask and normalized PostgreSQL (products, users, orders).
- Admin panel for full product, order, and sales tracking management.

Discount Platform (Groupon-style)

- Multi-category marketplace with full CRUD, responsive UI, and scalable architecture.
- Secure payments via Stripe and transaction handling with SQLAlchemy ORM.
- Relational database with offers, categories, users, and discount coupon system.

Professional Experience

Management & Development | Family Bookstore | 2019 – Present

- Managed business operations: payments, budgets, inventory, and stock control.
- Developed custom ERP system (React/Flask/PostgreSQL) optimizing daily operations.
- Designed tech solutions to real operational needs.

Receptionist / Manager | Beach Hotel | Costa Rica | 2016 – 2018

- Led a multicultural team and daily operations in a beachfront hotel.
- Assisted international guests in English and Spanish, resolving issues under pressure.

- Improved processes through effective communication and customer service.

Receptionist / Apart Hotel / Córdoba / 2011 – 2015

- Managed reservations, payments, check-in and check-out operations.
- Coordinated maintenance and client service, prioritizing quality.
- Strengthened communication and performance under pressure.

Education

Software Development Technician (In Progress) | Instituto Superior Dalmacio Vélez Sarsfield | 03/2023

Full Stack Web Development Certification | 4Geeks Academy | 12/2024 – 05/2025

Python & Django Course | Coderhouse | 03/2023 – 05/2023

Languages

Spanish (Native) | English (B1 - Intermediate)
